EXPERIENCE

Full Stack Web Developer and Market Research Analyst Intern   Feb 2024 - May 2024
DND Serv

- Invited to enhance the online auction platform previously developed during freelance work.
- Expanded market research and integrated AI to propose more advanced solutions.
- Upgraded technology stack to Next.js, Node.js, and MongoDB for enhanced functionality.
- Launched the improved platform online for community use and feedback.

Full-Stack Developer Intern   Jan 2024 - Feb 2024
DND Serv

- Developed a rental website using Next.js to manage renting functionalities.
- Implemented features for home listings, viewings, rent payments, and tenant move-outs.

Full Stack Web Developer and Market Research Analyst Freelancer   Jun 2023 - Sep 2023
DND SERV

- Conducted market research and analysis of local and foreign online auction platforms.
- Identified key issues in the local online auction space and introduced innovative solutions.
- Designed a wireframe with Figma and built a mockup using React, Node.js, and MongoDB for user testing and feedback.

Web Developer Intern   Jan 2022 - Feb 2022
Tunisian Company of Electricity and Gas - STEG

- Created a web-based storage application for STEG employees to manage energy meter installations using HTML, CSS, JavaScript, PHP, and SQL.
- Migrated data from traditional registers to the new application, improving accessibility.
- Enhanced data retrieval and storage efficiency, significantly reducing task time.
